**Data for this map comes from the 2005 - 2007 Estimates of the American Community Survey (U.S. Census Bureau). Only census-designated places (CDP's) with populations of 20,000 or more are large enough to yield reliable estimates from this survey, so only those CDP's are shown on this map. There is no recent, reliable data for the smaller cities or CDP's, which are simply shown as white space.
